# Indian Peroxide Limited

Indian Peroxide Limited (IPL) is a manufacturer of Hydrogen Peroxide in various grades, set up to address growing demands for high-quality specialty chemicals both in Indian and overseas markets. Backed with patented and advanced Hydrogen Peroxide manufacturing technology from EB Nuberg of Sweden. IPL has set up an environment-friendly manufacturing facility with the highest quality standards for the production process.

## Company Overview

### Premium quality hydrogen peroxide manufacturer

IPL has one of the biggest specialty chemical manufacturing plants in India covering an area of 150000 sqm. The plant adheres to world-class standards for health, safety, and environment (HSE). IPL Hydrogen Peroxide production technology is based on the anthraquinone auto-oxidation process producing high yield and high capacity products in an environment-friendly manner. IPL Hydrogen Peroxide is used as a bleaching and oxidizing agent across various applications in different industries. The product caters to various industries like Animal Nutrition, Electronics, Bulk Chemicals, Poultry, Mining, Metallurgy, Dye & Dye Stuffs, Pharmaceuticals, Agro Chemicals, Refineries, Aroma, Textiles, Chemical Synthesis, Paper, Specialty Chemicals, Aseptic Packaging, Food Processing, Healthcare, Veterinary, and Cosmetics.

# Infrastructure

## Manufacturing Capacity

World-class manufacturing facility with a production capacity of 150 TPD with expansion to 300 TPD.

## Swedish Technology

Advanced Swedish technology used ensures highest quality standard production process.

## H<sub>2</sub>O<sub>2</sub> Grades

Covering major applications of various industries by providing H<sub>2</sub>O<sub>2</sub> in technical grades of 60%, 50%, 40%, 35%, 30%, 25%, 11%, 6%, 3%, and food grades of 35%.

## Team

100+ high-skill set professionals having expertise in the latest technologies with extensive industry experience enabling us to deliver the best in quality specialty chemicals.

## Applications

Production caters to a wide spectrum of applications across various industries like Animal Nutrition, Electronics, Bulk Chemicals, Poultry, Mining, Metallurgy, Dye & Dye Stuffs, Pharmaceuticals, Agro Chemicals, Refineries, Aroma, Textile, Chemical Synthesis, Paper, Specialty Chemicals, Aseptic Packaging, Food Processing, Healthcare, Veterinary, and Cosmetics.

## Transportation and Packaging

Chemical supply is available in packs of 50 kg, 30 kg, 5 kg, 1kg, IBC of 1000 kg, and tankers of 10-35 MT ton capacity.

Hydrogen Peroxide available in all standard chemical grades of 35%, 50%, 60%, 11%, 30%, 25%, 6% and 3%.

## Supply availability

Packs of 50 kg, 30 kg  
5 kg, 1 kg

Tankers of 10-35 ton
